COVID-19 coverage exclusions

(17) The Corporate Travel Insurance policy will not cover any COVID-19 related costs such as travel cancellation or curtailment, quarantine expenses, self-isolation expenses, or COVID testing. The only COVID-19 related cover is medical expenses incurred overseas where an insured person contracts the virus and needs to seek medical attention or is hospitalised. There is no cover where a person may have been exposed to the virus and is advised to get tested. The insured person must be suffering symptoms which have prompted them to visit a Doctor. If the traveller is undertaking Travel for Business to their home country of residence, medical expenses are not covered.

Motor Vehicle Hire (excess only)

(18) A traveller who hires a motor vehicle should be aware that the University's Corporate Travel Insurance policy does not cover the costs of repairs to the hired motor vehicle or the cost of repairs to other property or claims for injury to other road users.

Pre-existing medical conditions

(21) A pre-existing medical condition means:

- a. Any sickness, disease, or other condition, including symptoms thereof suffered by the Insured Person, which in the one (1) year period prior to the Insured Person's journey:

- b. It shall also mean any congenital, hereditary, chronic or ongoing condition which the Insured Person is aware of or could reasonably be expected to be aware of at the time of booking their journey.

- a. a medical or dental condition that is currently being or has been investigated or treated by a health professional; and/or
- b. any condition for which a person takes prescribed medicine; and/or

- b. provide a letter from your treating doctor confirming your fitness to travel to the Health Management Advisor.

(26) You may only travel to any destination identified as a Level 3 ('reconsider your need to travel') or 4 ('do not travel') risk or above as defined by the [Department of Foreign Affairs and Trade](#) (DFAT) if you have obtained the permission of the Chief Risk Officer. Travel to areas against DFAT advice or to sanctioned countries as listed by the insurer (including but not limited to Iran, Egypt, Lebanon, North Korea, Russia, Cuba) or to geographically unique areas (e.g., Antarctica) is not automatically covered by the University's Corporate Travel Insurance policy. Therefore, please contact traveladvice@mq.edu.au for advice prior to booking your travel.

Claim

(31) To claim any University or personal costs or losses incurred that are eligible for reimbursement under the Corporate Travel Insurance policy. A [Travel Insurance Claim Form](#) must be completed and submitted to the Insurance Office via insurance@mq.edu.au. Only one Claim Form needs to be completed for losses involving both University and personal property, however, the values need be distinguished via supporting documentation to facilitate correct reimbursement to each party.

(32) The Claim Form indicates what proof of loss/damage the insurer requires to enable speedy settlement of a claim. The required supporting documentation as specified on the Claim Form must be submitted with the Claim Form to the Insurance Office for lodgement with the insurers.

Group Personal Accident Insurance for Students

(33) Group Personal Accident Insurance for Students provides protection for Students in the event of accidental death or bodily injury while engaged on authorised business and activities of the University – refer to the Summary of Benefits table below:

Summary of Benefits	Excess	Extent of Cover
Death and Capital Benefits	Nil	Up to \$100,000
Weekly Injury Benefits	7 days	85% of Income to a maximum of \$500; Aggregate Period: 104 Weeks
Weekly Sickness Benefits	N/A	No Insured
Non-Medicare Medical Expenses*	\$50 each and every claim	85% of costs up to a maximum of \$10,000

(34) The cover is for accidental death or bodily injury only. There is no cover for sickness or illness.

(35) Medicare rebatable medical expenses are not covered, nor are expenses related to a 'Medicare Gap' (as noted above).

(36) *Non-Medicare Medical Expenses means expenses that are not subject to any full or partial Medicare rebate nor recoverable by an Insured Person from any other source and incurred within twelve (12) calendar months of an Insured Person sustaining a Bodily Injury. The expense must be paid by the Insured Person for treatment certified necessary by a legally qualified medical practitioner to a registered private hospital, physiotherapist, chiropractor, osteopath, nurse, or similar provider of medical services. It excludes the cost of dental treatment unless such treatment is necessarily required to sound and natural teeth, (excluding dentures and first teeth) following a Bodily Injury covered by the policy.

(37) Any benefit payable under Non-Medicare Medical Expenses is less any payments made from any private health insurance fund that the Insured Person is a member of, or any other source.

(38) The insurer shall not be liable to make any refund in respect of:

- a. any expense recoverable by that Insured Person from any other source except for the excess of the amount recoverable from such source.
- b. any expense to which Section 67 of the [National Health Act 1953](#) (as amended) or any of the regulations made there under apply.

(39) No benefit is payable related to the "Medicare Gap", which is any difference between payment made by Medicare under the Medicare Benefits Schedule and the fee charged by the medical practitioner (if they are different).

(40) Generally, doctors, surgeons, anesthetists, and X-rays attract a Medicare rebate. AIG Insurance Limited is not a registered private health fund and legislation prohibits them from considering such expenses, including the Medicare Gap. Services provided by orthopedic surgeons, anesthetists etc. are normally subject to Medicare rebates and it is common practice for many doctors to obtain the relevant rebate on behalf of the patient directly from Medicare. The provider then charges the patient for any amounts above the scheduled fees, and this is known as a co-payment.

(41) The scope of the cover is:

"Enrolled students undertaking academic activities in relation to a course approved by the University and all other associated activities relating to the approved course which are authorized by the University, including travel but not including daily travel to and from the students' normal place of study and residence.

Non-academic activities associated with the University, such as sporting or other club activities or pursuits authorized by the University, including travel but not including daily travel to and from the insured person's normal place of study and residence."
